

***The latest findings from university research
now also for non-students and without long-term commitment!***

Saarland University is one of the leading universities in the field of continuing education and still is a pioneer in this field. Benefit from this expertise and participate in our scientific continuing education courses!

European Institute for Advanced Behavioural Management of Saarland University

The oldest MBA programme in Germany, the MBA "European Management" of the European Institute for Advanced Behavioural Management (EIABM) for the first time opens the courses of the existing programme as certified single events. This new offer enables everyone interested to take part in our certified courses and benefit from internationally renowned experts and leading scientists without the commitment of studying an entire programme.

For over 30 years, EIABM has offered the postgraduate Master of Business Administration degree programme in European Management. The MBA qualifies prospective managers, practitioners, international students and academics for top positions in the global market. In order to enable the further qualification of prospective executives with less time expenditure and even more in line with the individual needs of the participants, the EIABM offers for the first time a selection of 14

academic, accredited and internationally recognized MBA courses as certified individual events, specifically and individually tailored to the individual interests of participants.

The new option of selecting individual courses allows you to keep up to date with the latest economic know-how without having to enroll for an entire study programme. This way, you can advance your career and keep up with the rapidly growing demands of the globalised marketplace.

Qualify yourself with new skills in the areas of strategic, financial and behavioural management, marketing, entrepreneurship, basics of modern management on a European level and intercultural competencies!

Choose from our course offering from a total of 14 courses. You are free to choose which courses you would like to attend. You can freely combine individual courses from different modules or complete an entire module.
